

## Enough

As long term residents of the proposed Y neighborhood, we wholeheartedly endorse the effort to construct a new building at Mahackeno. The Y has been a cherished part of many Westport families' lives and it is time to build a much needed new facility. A downtown site may have once been an option, but that opportunity was thoroughly investigated along with a total of 30 locations during a 10-year period. Y traffic has never been a problem in the congested downtown, and as confirmed by traffic consultants, it will not pose one at Mahackeno. We are tired of seeing so many signs littering our beautiful community and arguing this very old issue; if the P&Z application is denied, the 85-year history of the Y in our community will come to an end. Westporters resisted change 20 years ago when a Robert Leathers playground was initiated, and today, we can not imagine Compo without the structure — let's think about how fortunate we are to have an available site and move forward with building so we can all reap the benefits.
